Draw. Define. Masterpiece

Turn your gaze into a masterpiece

Just like in a drawing, everything starts with a line.
For a natural look, draw a thin line along your lash line, smudging softly outward. For a more intense and lifted effect, thicken and lift slightly the line at the outer corner.

For deeper, more defined gaze, try tightlining on the upper waterline: lashes will instantly appear fuller, for a richer, yet soft effect.

Set your line in place with a matching eyeshadow for long-lasting wear.
Follow these steps for flawless precision, bold impact and full control – **the magic is already in your eyes.**

IT | Trasforma il tuo sguardo in un'opera d'arte

Come in un disegno, tutto parte dalla linea. Per un effetto naturale, traccia un tratto sottile lungo l'attaccatura delle ciglia e sfumalo leggermente verso l'esterno. Per intensificare l'effetto, ispessisci la linea nell'angolo esterno e portala leggermente verso l'alto per un effetto lifting.

Desideri uno sguardo più profondo? Prova il tightlining, applicando la matita nella rima interna superiore: le ciglia appariranno più folte e l'effetto più intenso, senza risultare marcato.

Per aumentare la tenuta del make-up, fissa il tratto con un ombretto tono su tono.

Segui queste tips per ottenere precisione, impatto e controllo. Il resto lo fa il tuo sguardo.

FR | Transforme ton regard en œuvre d'art

Comme dans un dessin, tout commence par la ligne. Pour un effet naturel, trace un trait fin le long de la racine des cils et estompe-le légèrement vers l'extérieur. Pour intensifier le regard, épaissis le trait au coin externe et remonte-le légèrement pour un effet lifting.

Envie d'un regard plus profond ? Teste le tightlining : applique le crayon dans la muqueuse supérieure, les cils paraîtront plus fournis et l'effet plus intense, sans effet artificiel.

Pour une tenue optimale, fixe le trait avec un fard ton sur ton.

Suis ces astuces pour obtenir précision, impact et contrôle. Ton regard fait le reste.
